

CAIO HENRIQUE MASSOLA

Front-End Software Engineer | React · TypeScript · Angular · React Native

São Paulo, Brazil · +55 (11) 97421-5275 · chmassola@gmail.com · github.com/CaioMassola · linkedin.com/in/caio-massola-37863b169

PROFESSIONAL SUMMARY

Front-End Software Engineer with over 6 years of experience in software development, building and evolving web and mobile applications with React, Angular, React Native, and TypeScript. Experienced in component architecture, Design Systems, automated testing, REST API integrations, AWS services, code reviews, and Clean Code and SOLID practices. Proven experience in SaaS products, agile environments, and cross-team collaboration, with a focus on quality, scalability, and performance.

TECHNICAL SKILLS

Front-End: React.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, React Native, Next.js, Redux

Testing: Jest, React Testing Library, unit and integration testing

Cloud: AWS (Amazon S3, Amazon Cognito)

Tools & Integrations: Storybook, Design Systems, Axios, REST APIs, Git, GitHub, GitLab, Docker

Back-End & Data: Node.js, Java, MySQL, AdonisJS, OpenSearch

Engineering Practices: Clean Code, Code Review, SOLID, Componentization, CI/CD

Methodologies: Scrum, Kanban, Git Flow

Languages: Portuguese (native), English (intermediate/advanced - fluent technical reading)

PROFESSIONAL EXPERIENCE

Front-End Software Engineer - SoftExpert - Joinville, Brazil (Remote) | May 2023 - Present

- Develop and evolve React and TypeScript features for an enterprise SaaS product used across multiple teams.
- Build and maintain reusable components and integrate them with a Design System documented in Storybook.
- Implement unit and integration tests with Jest and React Testing Library, focusing on the quality of critical components.
- Integrate AWS services, including Amazon S3 and Amazon Cognito, into application features and integrations.
- Integrate REST APIs and contribute to Back-End-related initiatives involving Java services and OpenSearch-based search capabilities.
- Actively participate in code reviews, applying Clean Code, SOLID, and componentization practices.
- Work in an agile Scrum/Kanban environment using Git, GitLab, and CI/CD pipelines while collaborating with multiple developers and teams.

Full Stack Developer - Orhganiza Tecnologia e Serviços Ltda - São Paulo, Brazil | Dec 2021 - May 2023

- Developed web applications using Angular and TypeScript on the Front-End, integrated with REST APIs.
- Built and maintained Back-End services with Node.js and MySQL as a Full Stack Developer.
- Developed cross-platform mobile applications with React Native for iOS and Android.
- Implemented performance and scalability improvements in legacy systems.
- Used Git for version control and participated in team code review processes.

Software Development Intern - Orhganiza Tecnologia e Serviços Ltda - São Paulo, Brazil | Nov 2019 - Nov 2021

- Supported Front-End development with Angular and TypeScript and Back-End development with Node.js and MySQL.
- Developed and integrated REST APIs and fixed bugs in production environments.
- Applied version control best practices with Git and worked within agile development processes.

EDUCATION

Bachelor's Degree in Information Systems - Universidade Anhembí Morumbi, São Paulo, Brazil | 2018 - 2021

ADDITIONAL STRENGTHS

- Experience with Design Systems and Storybook in environments with multiple products and Front-End teams.

- Front-End-focused profile with the ability to contribute to Back-End, Cloud, and Mobile development when needed.
- Consistent technical career progression: Intern → Full Stack Developer → Software Engineer.
- Fluent technical reading in English for documentation, pull requests, and technical communication.
